NOT YET CHOSEN**

Bryant Said to Favor Madison Over Milwaukee's Chances.

GRANT A SURPRISE

County a Complete Reversal of Form Over Former Conventions.

SPOONER ENDORSED

(Special A. D. Dispatch). Madison, Wis., Aug. 30.—As yet no definite place of headquarters has been decided upon, the choice of General Bryant, it is said, being in favor of Madison so that he can control the campaign, where he can be in close touch with Governor LaFollette and also watch the Madison district. Milwaukee has made a strong bid for the headquarters but it is doubtful if they will be taken unless there is a large campaign fund raised in that city.

Grant County Surprise. The governor's following are much disturbed over the reversal in form that has been shown in Grant county at their conventions. Grant was a solid LaFollette county at the state convention and elected delegates by a ratio of two to one that were for whatever the governor said. Thursday's assembly conventions were Spooner ones pure and simple and showed that the anti-Spooner element in Grant county had no place with the voters.

Endorsements. After endorsing President Roosevelt, Congressman Babcock, Governor LaFollette and the state senator and assemblymen the convention passed the following resolution as to Senator Spooner:

"We recognize the splendid and high qualifications of our senior representative in the United States senate, the Hon. John C. Spooner, and view with admiration and pride the famous record made in that high forum by that most able, eloquent and dignified exponent of sound Republican doctrine whose loyal and patriotic assistance to President Roosevelt in the solving of the greatest national problems that have confronted this nation since the dark days of the civil war is everywhere recognized."

Instruct Nominees. We, therefore, absolutely believe in him, have unlimited faith in him and unqualifiedly favor his return to the United States Senate, and we hereby unconditionally instruct the nominees of this convention to vote for and use all honorable means looking to his reelection to the United States senate, where he has labored so efficiently and faithfully to everlasting credit of this great state and nation.

Leitch Still Fighting. Despite the rumors some days ago that Leitch was out of the congressional fight he is still working for the nomination and has carried part of Jefferson county that was claimed by the Adams men. He has a good fighting chance of securing the nomination by a narrow margin over Adams.

**COLOMBIA HAS
MANY OBJECTIONS**

Panama Canal Question Brings Up Many Questions for Discussion.

Washington, D. C., August 30.—(Special).—Senator Concha, the Colombian minister, received information that the special instructions from his government to govern him in his reply to Secretary's Hay's proposition to modify the terms of the Panama canal treaty, so as to make it conform to the act of congress, will reach Washington on September 15. There are only two points on which material difference between the two governments may be expected. The first is the proposition that Colombia lease in perpetuity the strip of land through which the canal is to run. It is objected by the Colombian government that the constitution forbids a lease in perpetuity, but it has been suggested that this can be evaded by giving the United States a lease for one hundred years, renewable at the option of the United States. There is also understood to be some difficulty in Colombia over the proposition that the United States shall maintain courts of justice and police force in the leased territory.

Not Official. Though no official communication has been received from the Colombian government on the subject, some question has been raised in Washington as to the power of that government to definitely close any bargain as to the canal without the consent of the Colombian congress, and it is pointed out that during the present disturbed condition of affairs in Central America that a meeting of congress and any definite action by that body on the canal matter is very unlikely.

**MINE REGION IS
QUIET TODAY**

Strikers Offer No Violence to Workmen or Guards.

GOBIN'S ORDERS

Have Apparently Awed the Strikers Into Complete Fear of Troops.

MANY WANT WORK

(Special By Scripps-Mellae). Tamaqua, Pa., Aug. 30.—The town is quiet this morning and in fact all of last night there was no crowd on the streets. It is thought that General Gobin's orders to shoot any rioting miners if they refused to obey orders has had the desired effect upon the men.

At Scranton. No violence occurred this morning although the mobs of strikers tried to coax fifteen of the miners who returned to work on Friday to again join the strikers' ranks without avail. The mobs then quietly dispersed without any demonstrations.

Men Want Work. A large number of men applied for work at Lansford and Summit Hill this morning. The strikers were massed by the roadside but they kept a contemptuous silence as forty unionists were escorted by troops and boarded the cars.

New Order. General Gobin this morning supplemented last night's orders by instructing troops to arrest any women or children who molested the troops in any. The order is creating considerable excitement among the strikers.

**FOOTBALL MEN
REPORT SEPT. 10**

University Squad Will Begin Work on That Date with Plenty of Candidates.

(Special To The Gazette). Madison, Wis., Aug. 30.—Candidates for this year's Wisconsin football team have been called for practice Sept. 10, and Manager Kilpatrick and Capt. Juncos, who have returned from a trip around the state in search of material, expect about twenty men to show up by that time, while it is hoped to have fifty or more on the field by the time that the work is in full swing.

Four Vacancies. There are three and possibly four hard places to fill on the team this year. The hardest is probably that of left tackle, left vacant by "Art" Curtis, for whom no successor is in sight as yet. A pair of half-backs who can fill the places of Larson and Cochems are almost as hard to find but there is more material available for these places in last year's substitutes. The most likely men now seem to be Moffatt and Kirby. Moffatt made a good showing last year. Kirby also showed up well early in the season, but had to quit on account of illness.

Skow Uncertain. It is still uncertain whether Skow, the big center will be back. Fogg will probably play quarter, while Driver at full-back and all of the old line men with the possible exception of Skow are expected back.

RELICS OF FREE RIDES.

Railroad Man has a Great Collection of Annual Passes For World's Fair Exhibit.

(Special To The Gazette). World's Fair, St. Louis, Aug. 30.—One of the rarest among the transportation curios to be exhibited at the World's Fair in 1904 is a scrapbook of annual passes, the property of E. H. Prevost, general southern agent of the International Navigation Company of New Orleans. In this remarkable book Mr. Prevost has passed to delight the artistic eye, others that will interest the student of character through handwritings. Some have been used, others have been not, but each has an interesting story behind it. Whether worn and defaced, or as bright as the day they came from the engraver, they bear strange and characteristic autographs. Ever since he entered the wheel world, years ago, Mr. Prevost has been making this scrapbook of annual passes. W. K. Vanderbilt second vice-president of the New York Central and Hudson River Railway, signs the annual passes for 1882 in his own handwriting. On the same page is one bearing the autograph signature of Chauncey M. Depew of the same line, but just ten years later date. The most difficult signature to read is that of F. Walcott Jackson, general superintendent of the Pennsylvania. The signature of H. P. Baldwin is another hard one to decipher. He is now president of the Long Island Railway, but was formerly with the Southern Railway. The book is fitted with passes of all colors, but all are about the same size. Every line changes the color of its annuals every year.

It is said that Portuguese East Africa was purchased by Great Britain with a secret agreement to divide with Germany.

**UNITED STATES
HAS GROWN MUCH**

The Area Has Increased Wonderfully in the Past One Hundred Years.

Washington, D. C., August 30.—(Special).—During the last century the expansion of the nation in area, population and wealth has been so vast that it is almost incredible. The wonderful growth of the United States is shown in a monograph issued yesterday by the bureau of statistics. It consists of a series of tables showing area, population, wealth, money in circulation, banks and bank clearings and depositors, farms and farm values, manufacturers and their values, revenues, expenditures, imports, exports, railways and their business, shipping industry, and many other features of national development, in the census years from 1800 to 1855 and annually from 1850 to 1902.

**DEMOCRATS STILL
TALK POLITICS**

Jones and Rose Are the Two Candidates in the Lead.

NOT CERTAIN YET

Rose Leads the Country Districts, But Loses in the Cities.

POLITICAL GOSSIP

(Special A. D. Dispatch). Milwaukee, Wis., Aug. 30.—Political interest in the Democratic camp still centers on the choice for governor. Thus far Mayor Rose of Milwaukee and Burr W. Jones of Madison seem to be in the lead. Both men have strong followings and seem determined to win if the actions of their lieutenants can be relied upon as any criterion.

Rose Strong. Rose seems to be the popular choice of the rural communities who feel that he is their friend. He easily carries the country delegate vote but loses when the city and town votes are added. In Dane he made no fight but in the other parts of the state his lieutenants have been conducting a strict campaign.

Canvasses the State. While it was an apparent pleasure trip, or trips, Mayor Rose has done some quiet hustling on his own account during the past ten days. He has visited Rock, Green, LaFayette, Grant, Racine and Kenosha counties and consulted with the leaders of the democratic cause in those counties as to the best methods to be used. Rock county holds its conventions today and the result will show whether Rose visits there have had any effect or not.

Jones' Chances. Thus far Burr Jones and his adherents have done yeoman service throughout the second congressional district. He has carried Dane solid and has one his delegation many men who are prominent in democratic councils and some who have been in the background for six years, but formerly held the reins of power. He has had the best of harmony and the Dane delegation that has been split is now joined together again for the one cause.

In The State. In the state Jones has a small following but his efforts will be directed, it is said, towards the delegates that come from districts where no endorsement has been given and they are not instructed. His lieutenants Bird, Rogers and Rogan claim that he has at present the best chance of any of the numerous candidates that are in the field.

Held in Milwaukee. Many of the congression conventions will be held in Milwaukee this year at the same time as the state convention of September 3. The reason for this is given that as the law does not state where they shall be held it will cement the party more firmly to have a general meeting at the one time and everything arranged at once.

UNCLE SAM IS GETTING RICH

FIGURES ON COUNTRY'S GROWTH ARE MOST INTERESTING.

THEY TELL OF PROSPERITY

Monograph of Treasury Bureau Shows a Decided Increase of Money.

A moving picture of the conditions in the United States at decennial intervals from 1800 to 1850, and annually from 1850 to 1902 is presented in a monograph just issued by the Treasury Bureau of Statistics, entitled "Progress of the United States in Its Material Industries." This monograph consists of a series of tables showing area, population, wealth, debt, money in circulation, banks and bank clearings and deposits, farms and farm values, manufactures and their value, revenues, expenditures, imports, exports, railroads and their business, the shipping industries and many other features of national development, in the census years from 1800 to 1850, and annually from 1850 to 1902. The figures presented, regarding more than 100 subjects, show an interesting, and in many cases a phenomenal growth in the industries, finances, production, and transportation of the country.

Great Growth
The area has grown from 3,273,814 sq. miles in 1800 to 3,027,600 sq. miles in 1902, exclusive of Alaska and the islands belonging to the United States. The population per sq. mile, which was 3.6 in 1810, was 26.1 in 1902, notwithstanding the great increase in area meantime. The total wealth has grown from 7 billion dollars in 1850 to an estimated 91 billions in 1900 and the per capita wealth from \$307 in 1850 to \$1,225 in 1900.

Public Debt
In no feature has there been greater fluctuation perhaps than in the public debt and interest charge. In 1800 the public debt was \$15 per capita; in 1840 it had fallen to 21 cts. per capita; in 1852 it was \$2.67 per capita; in 1861, before the beginning of the war, \$2.74, and then mounted rapidly until it became \$76.98 per capita in 1868, gradually falling again after the war to \$30.27 in 1880, \$14.22 in 1890, \$12.64 in 1896, and \$12.97 in 1902. The money in circulation amounted to \$13.85 per capita in 1850, it touched \$20.57 during the period of paper currency near the close of the war, but again fell below the \$20 mark until 1881, when it reached \$21.71 per capita. In 1892 it had reached \$24.60 per capita; in 1895 it was \$21.44; in 1900, \$26.93, and in 1902, \$23.40 per capita, the highest point that it has ever reached. Deposits in savings banks amounted to \$1,138,576 in 1820, \$6,973,304 in 1830, \$43,431,130 in 1850, \$149,277,504 in 1860, \$549,874,358 in 1870, \$819,106,973 in 1880, \$1,524,844,506 in 1890, \$1,810,507,023 in 1895, and \$2,597,004,580 in 1901. Meantime the individual deposits in national banks had grown from \$500,910,873 in 1850 to \$3,111,690,196 in 1902.

Increase of Money
The cause of these financial conditions above noted—the increase of currency, bank deposits, etc.—is found in other tables showing the development of farms, manufactures and of the various industries. The number of farms increased from 1,449,073 in 1850 to 5,739,657 in 1900, the value of farm and farm property from four billion dollars in 1850 to 20 billions in 1900, and the value of their product, which was not measured until 1870, grew from \$1,558,000,000 that year to \$2,764,000,000 in 1900. The value of farm animals increased from \$44,000,000 in 1850 to \$2,981,000,000 in 1900. The value of the product of the manufacturing industries grew from one billion dollars in 1850 to 13 billions in 1900, while the number of people employed therein grew from less than one million in 1850 to 6 1/2 millions in 1900.

Atlantic
The Atlantic's series of outdoor papers continues in the August number with a group of articles of a very unusual character. First in the group is a rare piece of imaginative prose, "The Desert," by Vernon Z. Reed. This is one of those carefully wrought, profoundly suggestive meditations which belong in the higher reaches of prose writing, but one not uncommonly found between the covers of a magazine. There is also a remarkably vivid account of "The Moonshiner at Home" by an adventurous forerunner, Leonidas Hubbard, Jr., and a valuable descriptive paper about the African Pygmies by Samuel Phillips Verner, who has enjoyed the exceptional advantage of living among them.

LITERARY NOTES.
The Carnival at Rome is Not What It Used to Be.
Ah, old time carnival at Rome, whether art thou departed? Where are now masque, reveller, harlequin, punch, pantaloons and moon-struck Pierrot; where are the gay medley of spanked fabrics, ribbons, and feathers, swaying along under a down-pour of confetti and an avalanche of flying paste? Where is the hall of bouquets thrown from crowded balconies, the shrill cries of the merry sham-battles, thy blatant buffons and thy savage barbarians, scurrying to and fro between living terraces of spectators, thy myriad torches which their gold turned all the windows of the Corso to a giant constellation of reflected stars? How gay it all was, to be sure, and how well contrived to make men madcap!

In such a carnival be sure the old French spirit of gaiety did not fail to play its part, and in the salon of the Villa an album of fantastic water-color caricatures gives proof that Cabanel, Garnier, Boulanger, and their fellows, entering heartily into the spirit of the Italian fete, were apt in the art of amusing and being amused. Their cars and zinguerades were inspired with the fancy of a Gavarni, but added thereto a vein of

historical accuracy, as when the life of ancient Egypt furnished the keynote of the scene. Enthusiasm prevailed with more or less ardor until 1850, when for the last time a French car appeared upon the Corso at Carnival time. It was all of white and gold, in the style of the Renaissance, with a huge statue of Rome in the center, and in front, the escutcheon of the Medici. Amid a profusion of flowers appeared the French students, in magnificent Henry II. costumes, with white hats and doublets and long to be seen therein—the "Beautiful Fatima," whose dances were for the male eye alone; "La Belle Nivernaise," with astounding calves to her legs; the "Torpedo Woman," and "Olympian Wrestlers," clad in trunks and tiger-skins, and with magnificent biceps and strapping chests, their heads, incidentally, being portraits of the students. In the center of the salon thronged the organizers of the fete, some in costumes patterned on those of Hercules—From "Prix de Rome Students at the Villa Medici," by Louis Edouard Fournier, in the September Scribner's.

Widow Barror's Seining.
By Francis Sterne Palmer.
Madam Barror lets her farm run down. Oats on the flats are like to drown; Her buckwheat has no chance to grow.

Stumps and stones crowded on it so; But Madam Barror she doesn't care, Her better farm is the broad lake there, And every night from her strip of beach Seine-nets into the water reach:—"Buy a haul, you standin' dero, Come help de widow out; Dis net's so full it's almos' tear Wild whitefish and wild trout;"

Around her bonfire the neighbors stand To bid on the hauls that drag to land; They like to watch the figure fall Of the big m'um as she bosses it all; For Madam Barror is a driver at work And now not one of her brood may shrink; She stops the fooling of half-grown Pierre, And boxes her Delphine's pretty ear:—"Come buy!" she cries; "afore he was dead My man was frien' to you all; His woman mus' fin' de children bread; Come, neighbor, buy dis haul;"

TO BE COMPLETED IN SIXTY DAYS

CEMENT POST FACTORY NEAR-ING FINISH.

EXCAVATIONS ARE EXTENSIVE

Big Hydraulic Presses and Screens Will Soon All Be in Place.

Sixty days is the time set by Contractor Peters before his work on the cement post factory will be completed. In the general appearance of the building very little change has been effected in the past two weeks. Preparations have been made for installing the machinery, and the carpenters have been putting the last touch on their part of the building structure.

Work Begun Sooner.
It may not be sixty days before the process of making cement posts will be begun. At present the plans of the company are to begin operations before the screening and drying building where the sand is to be prepared, has been completed. It will be possible to obtain the sand direct from the hill behind the building. The hydraulic presses will soon be placed and as soon as a part of the machinery is completed, operations may be begun without waiting the completion of the carriers or of the drying works.

Machinery Arriving.
Almost daily more machinery is being shipped in. Among the last arrivals in this direction is a fan which will be used to aid in producing a draught for the furnace. A very short stack has been erected, and the location is sheltered at best so that some artificial means of inducing a draught is essential.

Extensive Excavations.
Not yet has the foundation for the screening building been begun upon. A very large quantity of sand has to be removed from the side of the hill, and the operation has occupied a greater length of time than was at first figured upon. The grading within the building to the height of about three feet has been completed with sand and gravel that has already been taken up. The earth is now being used to grade for the north freight spur to the building, which has never been completed.

PARTS WERE WELL TAKEN BY ALL

Along the Mohawk is a Very Pleasing Play, with Good Situations.

"Not a bad show" was the consensus of opinion at the end of the first act of "Along the Mohawk," as presented at the Myers Grand last evening. By the time the curtain was rung down for the last time, the goodly number of persons who had attended the performance began to leave the house, this indifferent expression of commendation had changed to words of enthusiastic praise.

A Charming Drama.

As presented by Miss Julia Kingsley and Nelson Lewis, this entertaining pastoral comedy drama, has many points of merit. The two principles, while presenting antipodal types of dramatic art, and giving rather an incongruous result when thus presented together, both possess a considerable degree of ability. Miss Kingsley has something of a tendency to mar the beauty of her lines by taking them rather more seriously than the situations warrant. Perhaps it was this undue pomposity, however, that made her clearly the most prominent person on the stage, at all times, and it was she who received the lion's share of applause.

Lewis Is Great

Nelson Lewis was beyond criticism. His face is his fortune. Added to that he has an Ichabod Crane figure and a philosophical drawl, that admirably fit him for the part of "Old Stillwaters," the true hearted, but financially embarrassed editor. The remainder of the cast was evenly diled by J. J. Boyd as "Angelo" the artist on the spot, was individual in his part and together with Miss Edna Ward as "Foggy Knight," the future belle, figured in some effective comedy scenes.

Oh, Pilgrim Heart.

Whence go you, oh my heart, In pilgrim gray,
What journey bids you forth so long and late?
When white arms beckon, red lips bid you stay,
What quest is this that will not let you wait?

Ever I go through many a night and day,
Through many a day and night to find my mate.

Nay, but the way is long, oh pilgrim heart—
See where the deserts burn and waters roll;
What token have you that one waits apart,
A joy uncertain or an unknown goal?

Long since I heard the voice that bade me start
With that strange word wherewith soul calls to soul.

Oh, pilgrim heart, when ended is the quest
And one stands welcoming upon the steep,
Now, by what token is the first and best,
Now, by what sign shall love his promise keep?

Oh, her red lips will laugh when my lips jest,
And her sweet eyes will weep when my eyes weep.

—Theodosia Garrison, in the Era Magazine.

SUNDAY NIGHT.

Innovation to Janesville Theater

Goers Starts To-morrow.
"The Hottest Coon in Dixie," the rag time musical comedy and excellent coon show presented in rather different mould than the ordinary negro performance, the usual horse play and buffoonery deemed essential are discarded, and their places acceptably filled by graceful drills and dances executed by a well trained and handsomely costumed company and by more coon songs and southern melodies. There is absolutely nothing of a vulgar or objectionable nature. The chorus are especially selected and trained and the singing is a feature of the performance, this does not mean that dancing and comedy are omitted for both are well represented by a cast of many well known names including such names as Black Carl, Billy Miller, Miss Grundy, Hawkins, Vaughn and others who make the show as a whole good to see and good to hear and one of the best of its kind.

CAR STRIKE MAY FALL THROUGH

One Man Blocks the Request for More Pay and Less Hours' Work.

The proposed strike of the motor-men and conductors on the Janesville street railway, if their demands as to pay and shorter hours are not granted, is likely to fall through on account of one of the men now refusing to sign the paper.

Must Have Unity
The men can do nothing towards getting their demands complied with unless all of the employees are of one opinion.

A Typical Labor Agitator.

(M. G. Cuniff in The World's Work.)
Consider the bridge-builders. Said I to their agent, "What would happen if the Peacoyd or Steelton bridge-builders were aggrieved in Africa or Asia?"

"The men would strike in New York," said he. There is union power reaching around the world. This agent has served the union for the last five years for ten dollars a day and expenses, not here alone, but abroad. Like other union officers he thinks union as you and I think the "shop" of our daily toll. He goes armed. He shuns no trouble. I asked a member of his union about him.

"He's all right," came back. Why not? None of his men are out of work; their pay is four dollars and as much more as they can earn; their day is eight hours; they have a practical monopoly of their trade. The business agent has done it.

"I have heard it said," he remarked to me one evening, "that we fatten on the working-men, the deluged workmen. These boys five years ago, worked ten hours a day for two dollars and seventy five cents. Each contributes a half a cent a day to my salary; can they afford that from their dollar and a quarter added pay? Is the half a cent a bad investment?" and he walked quickly toward a meeting in the hall and on the stairs by seventeen whippersnappers—I counted—on urgent business. A successful politician could not be more beset.

When Freedom Shrieked.

When William J. Bryan was making his oratorical campaign in 1896, he found himself one Sunday in a little town of the northwest, the chief institution in which was the state penitentiary. The warden, an ardent admirer of the democratic leader, invited him to address the convicts on some patriotic subject, and Mr. Bryan readily acceded, though, as he afterwards explained, he did not expect to get many votes thereby. "It was one of the best audiences I ever addressed," said he afterwards. I usually took my hearers pretty well, but I may say that never before or since have I talked to a considerable meeting without having one single man get up and go out. Of course I had to be rather careful in my choice of a subject. It seemed to me that any impassioned tribute to the blessings of freedom would be out of place, but I found later that my compunctions on this subject were quite baseless. When I had finished, the chaplain requested all present to rise in singing "America," and I assure you that no line of our national anthem was roared out with more genuine enthusiasm by these striped convicts than—

"Sweet land of liberty!"

PLAYS MORGAN. KING OF TRUSTS

SAY THE PEOPLE SHOULD SPEAK

Members Appeal to President Roosevelt to Use His Influence to Aid Them in the Hour When They Are Being Crushed.

Wilkesbarre, Pa., Aug. 30.—The Public alliance of this city, representing business men of the vicinity, has appealed to President Roosevelt for aid in obtaining a settlement of the strike. They have already appealed to Senators Quay and Penrose. The petition follows:

"Since the inception of the barbarous and senseless struggle in the anthracite coal region we, the noncombatants, who stand upon neutral ground, have suffered the inevitable fate of such unfortunate. The tide of battle ebbs and flows over and about us. We have endured patiently. We have petitioned humbly.

Meet Disappointment.

"We had hoped for much upon J. Pierpont Morgan's return, but now, after a struggle of four months' duration, a period of suffering and progressive business paralysis, when it seemed to us that the time was propitious for a settlement of some kind, if not as a matter of concession to public opinion yet as a plain business proposition, Mr. Morgan has met with his henchmen and the edict has gone forth:

Is Government Supreme?

"There will be no settlement, no arbitration, no conciliation, no mediation, no concessions. The fight must go on."

"Mr. Morgan has placed a ban upon us which means universal ruin, destitution, riot and bloodshed.

"Is J. Pierpont Morgan greater than the people? Is he mightier than the government? Will he be permitted to retain this menacing power?

Appeal From the King.

"It is time the people should speak. It is time that their voices should be heard.

"Representing the interests and sentiment of nine-tenths of our people, we appeal to you to use your influence to stay the juggernaut which crushes us. Encouraged by your recent utterances, relying upon your judgment and patriotism, confident of your great moral courage, we appeal from the king of the trusts to the president of the people.

"THE PUBLIC ALLIANCE."

"T. F. Hart, Chairman."

No Settlement.

There was a rumor that J. Pierpont Morgan had settled the strike, but President Mitchell said of it: "There is no truth in it. Before the strike is settled the operators or Mr. Morgan will have to confer with me, and they have not done so."

"I am pleased to give my experience with Wine of Cardui as I am very grateful for its help. After my first baby was born I could not seem to regain my strength, although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband came home one evening with some Wine of Cardui and insisted that I take it for a week and see what it would do for me. As he seemed to have so much faith in it I did take the medicine and was very grateful to find my strength slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

hers, as are their ambitions, triumphs and defeats. Healthy women do not suffer miscarriages nor does a woman who is healthy suffer tortures at childbirth. It is the woman who is ailing—who has female weakness—who fears the ordeal of becoming a mother. Wine of Cardui builds up the womanly in a woman. It stops all unnatural drains and strains—irregularities which are responsible for barrenness and miscarriage. It makes a woman strong and healthy and able to pass through pregnancy and childbirth with little suffering. After the ordeal is passed the Wine prepares a woman for a speedy recovery to health and activity.

MOTHERHOOD is the noblest duty and highest privilege women can achieve or aspire to. Without this privilege women do not get all there is in life—too often they go through the world discontented, wrapped up in their own selfish cares and troubles. How different is the happy mother, watching her children grow into manhood and womanhood. A mother lives as many lives as she has children—their joys and sorrows are

Wine of Cardui, in re-inforcing the organs of generation, has made mothers of women who had given up hope of ever becoming mothers. Wine of Cardui will cure almost any case of barrenness except cases of organic trouble. How can you refuse to take such a remedy that promises such relief from suffering? Wine of Cardui simply makes you a strong woman, and strong, healthy women do not suffer. They look forward to motherhood with joy.

DEMMIES ARE IN SESSION TODAY

IN A MIX-UP OVER SEATING DELEGATES FROM TOWNS.

BELOIT DOES NOT FAVOR ROSE

Both the Jones and Rose Men Fight for Control of the Convention.

Democratic leaders from all parts of the county gathered in the city today, being called here by the democratic state delegate convention called for the purpose of naming delegates to the state convention at Milwaukee, September 3. The county convention, to place in nomination candidates for the county offices, to elect a county committee and a chairman and secretary thereof.

Congressional Convention
The county congressional convention for the purpose of electing delegates to represent the county in the congressional convention. The assembly convention for the purpose of nominating a candidate for the assembly in the First, Second and Third districts and the county superintendent convention to place in nomination a candidate for superintendent of schools in each of the districts.

Trouble Feared
It developed this morning that the convention, especially the one for the election of delegates to the state convention, might not be any more harmonious than some of the republican conventions. David Rose, was not the universal choice of the county and a fight was on between the Jones and Rose factions. While it was conceded by most of the leaders that they were in favor of Rose, there was a faction in favor of Jones. The fight in the convention on this question was to be made when the lists of delegates who were entitled to seats in the convention were presented.

Rose Faction
The Rose faction in this city contended that as there were no caucuses held in many of the towns that they were not entitled to representation in the convention. If they were able to make this work and throw out the delegates they could control the convention for Rose.

Jones' Followers
The Jones men opposed this contention and were backed up in their opinion by delegates from Beloit and Edgerton. They claimed that it was an established precedent that the towns should have representation in the convention even though no caucuses were held. The Jones men felt confident that if they could get in the delegates from the surrounding towns they would control the convention for their candidates, or at least have the delegates go to Milwaukee unopposed.

Few Candidates
The candidates for the county offices are not falling over one another looking for the nomination, but the party is having a hard time getting men to take the nomination and take a chance of defeating the republican nominees.

Convention Called
The conventions were called to order at 2:20 o'clock by Isaac F. Connors, chairman of the county committee. For some time before the conventions were called knots of delegates gathered about the hall, trying to settle on some plan to fix up the question of seating the delegates from the towns where no caucuses had been held. It looked as if trouble was brewing and that the storm was liable to break forth at any time after the convention was called. One delay was caused by the Beloit delegation declaring that they would stand with the county delegations against Rose.

Credentialed Committee

After the reading of the call Geo. G. Sutherland nominated F. Cleary of Beloit as temporary chairman and the nomination was confirmed. Mr. Cleary accepted in a short speech. C. A. Horn of Edgerton was elected secretary. J. J. Cunningham moved that a committee on credentials consisting of Andrew Jensen of Edgerton, R. J. Whitton of Janesville and J. J. Riordan of Beloit. F. C. Burpee moved as an amendment to the motion that the chair appoint a committee of five. A rising vote was taken on the motion to the amendment which was carried by 43 to 33.

The chair appointed as the committee on credentials F. C. Burpee and J. J. Cunningham of Janesville, C. F. Tallard and Andrew Jensen of Edgerton and Con Buckley of Beloit. F. R. Morris moved that anyone representing the town, village and city where no caucuses had been held should be allowed a seat in the convention. The motion was amended to include those holding proxies. Both motions carried. The recess was then taken.

GOOD BALL GAME IS ASSURED

Brothead Plays Bass Creek at Bleasdale's Park Sunday Afternoon.

Tomorrow a game of base ball will be held at Bleasdale's park near Hanover, which gives promise of being one of the most exciting contests of the season. Brothead has an aggregation of men who are playing phenomenal ball. In the course of two years, so the story goes, they have not suffered a defeat. Bass Creek has a similar tale to tell for this season. Thus far they have played five games, each of which has been a victory for them.

In the game which is to be played Sunday each team will use its fastest battery. For Brothead, Fairman, the old university man, and Newman will manipulate the sphere between them. Fred Dixon and Kennedy will perform the same operation for Bass Creek. A record-breaking crowd is expected to be in attendance. Sunday before last three hundred paid admissions were taken in. Farmers in the region, local sports, and others who are simply seeking a pleasant way of spending Sunday afternoon have found this series of games to be well worth attending and the games have been constantly growing in popularity.

RUSSELL SAGE HITS COAL MEN

Declares American People Will Bring Operators to Time.

New York, Aug. 30.—Russell Sage said: The American people will bring the coal roads to their senses. If this strike is not stopped very soon the public will unload the unpopular coal shares and the men who are running things with such high hands will lose control of their roads.

"Then some very arrogant gentlemen will be out of their jobs. When the coal stocks are dumped on the market, as they must be if this thing goes on, they will be bought by men who have sense enough to settle the strike for the good of all concerned. I would buy them myself, with the help of some associates."

PLANS ARE MADE FOR LABOR DAY

MONDAY'S PICNIC PROMISES TO BE A RECORD BREAKER.

MUSIC PLAYING ALL DAY LONG

The Drum Corps Will Be on the Streets, and Imperial Band at the Park.

Enthusiastic accounts have been given of the progress which has been made by the committees in charge of Labor Day. The celebration will, according to all reports, far surpass anything of the kind ever held in this city. From early morning when the first boat makes its trip to the park, until late in the evening when the last of the dancers weary, and turn toward home, a day of joy and pleasure is anticipated.

Will Go Early
At nine o'clock in the morning the first boat will start for the Springs. It is expected that a number who are to picnic at the grounds during the day will take advantage of this boat to be early upon the grounds. It is feared that the jam will be so great that it will be difficult for all of the late arrivals to make their way to the park in comfort. For this reason as many as possible are urged to make the trip early in the day. Thoroughly out the day the steamer will make its trips from the landing at short intervals.

With Fire and Drum
Early in the morning the life and drum corps which so ably made its presence known on the day of the ex-soldiers and sailors reunion will be upon the streets. Closely following in their trail will be a "sandwich man" bearing the inscription "Enjoy Life at Crystal Springs Park Today." Music for the day will be furnished by the Imperials, but it is believed that the martial band will be perhaps a stronger card to attract the attention of those who intended to stay away from the great celebration of organized labor.

Out-of-Town Visitors.
Delegations from neighboring towns will help swell the crowds which are expected to swarm the streets, and later make their way to the picnic grounds. Edgerton has written saying that a large number of union laborers from that city will be in attendance. Other towns are expected to send smaller delegations. Take it all in all the committee are confident that for numbers present, attractions offered, and the reputation of the speakers the day will be a record breaker.

WOMAN CAUGHT STEALING GOODS

Detected in the Very Act At Bort, Bailey & Co.'s Store This Afternoon.

At 2:30 o'clock this afternoon a well-dressed German woman was detected stealing dry goods in the store of Bort, Bailey & Co.

She had secreted a silk dresser and handkerchief case beneath her shawl and was a block from the store when Frank Hogan, a clerk in the store quietly walked up behind her and pulled the stolen articles from beneath the shawl.

The woman at once flew into a rage but in spite of her pleadings she was marched back to the store by Officers John Brown and Wallace Cochrane. She was closely questioned but not placed in jail. She was accompanied by another woman who stated that she was innocent.

Officers Brown and Cochrane at once drove to the home of the guilty woman for the purpose of searching the house in the hopes of locating stolen goods.

The home in question is on the Magnolia road a few miles from this city. Bort, Bailey & Co. have been missing articles for some time and but a week ago had seven satine waists stolen at one time.

WAS NOT SO MUCH TOBACCO PLANTED

THE FIELDS OVER 1,000 ACRES LESS.

DUE TO LAST YEAR'S DROUGHT

The Yield Will Be Large, However, and the Quality Is Very Good.

The returns from the assessors of the different towns of the county show, that this year there is about 7,250 acres of tobacco in Rock county as against 8,248 in 1901 and 8,562 in 1900 which is a falling off of about a thousand acres.

Porter Leads
Porter is the leading town with 966 acres and is followed by Fulton, Center, Harmony, Johnstown and Spring Valley.

Due to Drought
The falling off in the number of acres is due to last summer's extreme dryness. Many farmers hesitated this spring to plant tobacco, fearing a repetition of the dryness of 1901.

Yield Large
Buyers say that while the number of acres are comparatively small the yield will be even larger than it has been in the past two years. This is due to the excellence of the crops and the increased productiveness of the plants.

The bather sometimes finds the sand soft and yielding to his feet. It does not trouble him and he goes on until presently he sinks to his knees and discovers to his horror that he has to fight for his life in a quicksand.

Disease is much like the quicksand. The first symptoms of stomach trouble do not cause anxiety. But when the body grows weak through lack of nourishment and disease of the stomach breeds disease of heart, lungs, liver or kidneys, the sufferer realizes his danger and seeks for medicinal aid.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, lungs, liver, kidneys, etc., when these diseases have their origin in disease of the stomach and its allied organs.

Thomas A. Swartz, of Sub-station C, Columbus, Ohio, writes: "I was taken with severe headache, then cramps in the stomach and my food would not digest, then kidney and liver trouble, and my back got weak so I could scarcely get around. At last I had all the complaints at once, and the more I doctor'd the worse I got until six years passed. I had been so poorly I could only walk in the house by the aid of a stick, and I got so thin I had given up to die. Then a neighbor said I should get Dr. Pierce's Golden Medical Discovery and make a new man out of myself. The first bottle helped me so I thought I would get another, and after I had taken eight bottles I had gained twenty-seven (27) pounds. I have done more hard work in the past eleven months than I did in two years before, and I am as stout and healthy to-day, I think, as I ever was."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

BUSINESS SHOWS PROMPT RECOVERY

COAL OUTPUT IS INSUFFICIENT

Lack of Coke Forces Suspension of Iron Furnaces—Present Indications Are That a Large Crop Is Assured to Farmers.

New York, Aug. 30.—"Gradual resumption of anthracite coal mining is encouraging, although the output is not yet sufficient to have any commercial value. Business conditions are unsatisfactory at the strike center, but reports from all other sections indicate unusually prompt revival after the summer vacation season, with exceptionally large operations among dealers in the agricultural regions.

Large Crop Assured.

Notwithstanding some bad weather, large crops are now practically assured, although the most sanguine results may not be attained. Manufacturing plants are now fully occupied as a rule, the least gratifying reports coming from furnaces that cannot secure coke, owing to railway blockades. The transportation problem is becoming serious, as a factor of crop moving is about to be added, and moreover, much coal must be moved by rail that usually goes to consumers by lake and canal. The foregoing is from the weekly trade review of R. G. Dun & Co. It continues:

Coke Is Scarce.

"Iron furnaces are suspending production because coke cannot be secured, and it is evident that the rate of output at the opening of the new month will show a serious loss. The scarcity of fuel was expected at the few plants using anthracite coal, but has come as a shock to the coke furnaces, for the Connellsville ovens have steadily maintained a weekly production of 250,000 tons. Inadequate railway facilities are responsible and the situation is critical.

As the stocks of pig iron were very low at the opening of August, consumers are in an embarrassing position, and there is a growing disposition to refuse contracts.

Dry Goods Active.

"The dry goods jobbing trade reports a liberal distribution and supplies are only moderate in the primary market. Changed conditions in the raw material have accelerated inquiries for cotton goods, buyers seeking figures on forward contracts and placing a fair amount of orders. Slightly less activity is seen in men's wear, women and worsted fabrics, but fancy worsteds are in better request.

"At last footwear makers have been able to secure a moderate advance in prices in response to the recent sharp rise in materials. Leather is strong and active, while hides made higher record prices, but the market has quieted down.

Cotton Advances.

"Deterioration from the exceptionally brilliant early outlook for cotton gave speculators an opportunity to advance options nearly \$5 a bale, and dealings were heavy. Spot cotton was less sharply advanced, although a firm tone developed.

"Failures for the week numbered 173 in the United States, against 202 last year, and 14 in Canada, against 21 a year ago."

MICHIGAN MOB SLAYS PRINTER

FALSE CRY OF "ASSAULTER"

Fearing Arrest by Policeman, He Attempted to Escape, Closely Followed by a Crowd and Finally Got a Bullet in His Heart.

Monroe, Mich., Aug. 30.—Joseph La Barge was killed here by a mob that chased him through the streets and finally rounded him up in a cornfield, where he was given the wounds that caused his death. La Barge was running away from a policeman when some one raised the cry of "assaulter," and in a moment a crowd of men were in frenzied pursuit of the supposed criminal.

Had Agreed to Elope.
La Barge, who was 24 years old, was a printer living at 319 Cherry street, Toledo, and was employed by Joseph Willets. He came to this city in see Mrs. Walter Lemerand, whom he had known for five years and who lived in Toledo until last spring. After spending a couple of hours at the home of the woman the pair reached an agreement whereby they would elope to Toledo.

Quarrels With the Husband.
Mrs. Lemerand quit work at La Barge's laundry, where she was employed, and after the discussion at her home arranged to meet La Barge and to take an electric car for Toledo. Just before 12 o'clock Lemerand came home and immediately got into an altercation with his wife's admirer. The woman interfered, and La Barge got away. Shortly afterward the husband went in search of an officer.

Notifies Policeman.
At the corner where the man and woman were to meet he ran across Officer Beaudrie and La Barge. To the policeman he said:
"I found that man with my wife a few minutes ago, and I want you to arrest him."

The officer started for La Barge, but the latter ran. Beaudrie fired two shots over the fellow's head, but he kept on running. In a few minutes a crowd had joined in the chase of the supposed assaulter. The man was finally cornered by two men who had revolvers.

Shot Through the Heart.
La Barge flashed a razor, and instead of heeding an order to drop it made another dash for liberty. Both men fired a number of shots at him, but he kept on running until he dropped on the front porch of Mrs. La Salle's house. La Barge had been shot in the left side near the heart and died just after reaching the office of Dr. Dowe.

It was learned that La Barge was out on parole from the Toledo reformatory.

A FATAL MISTAKE!

Is Often Made By the Wisest of Janesville People.

It's a fatal mistake to neglect backache.

Backache is the first symptom of kidney ills.

Serious complications follow. Doan's Kidney Pills cure them promptly.

Don't delay until too late. Until it becomes diabetes—Bright's disease.

Read what a Janesville citizen says:

Mrs. N. J. Casey, of 103 Prairie Ave. says: "Doan's Kidney Pills proved better than any other medicines I took for my kidneys. These organs troubled me off and on for some years. Backache was the chief symptom and often caused me to suffer severely. I tried a number of remedies but continued to grow worse instead of better. I was finally persuaded to try Doan's Kidney Pills and procured a box at the Peoples' Drug Co.'s store. I only took them a few days when I felt better. Should there be any recurrence of my trouble I now know what to use."

KIDNEY TROUBLES.

Mrs. Louise M. Gibson Says That This Fatal Disease is Easily Cured by Lydia E. Pinkham's Vegetable Compound.

Of all the diseases known with which the female organism is afflicted, kidney disease is the most fatal. In fact, unless prompt and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that dreaded disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so called remedies for kidney troubles, Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women.

MRS. LOUISE M. GIBSON,

Corresponding Secretary Woodlawn Country Club, Chicago, Ill.

"DEAR MRS. PINKHAM:—I felt very discouraged two years ago, I had suffered so long with kidney troubles and other female complications, and had taken so much medicine without relief that I began to think there was no hope for me. Life looked so good to me, but what is life without health? I wanted to be well.

"Lydia E. Pinkham's Vegetable Compound cured me and made me well, and that is why I gladly write and thank you; six bottles was all I took, together with your Pills. My headache and backache and kidney trouble went, never to return; the burning sensation I had left altogether; my general health was so improved I felt as young and light and happy as at twenty.

"I am a sincere admirer of yours and feel that you must have a host of friends all over this country who feel as I do, even though they do not express it."—Mrs. Louise M. Gibson, 4813 Langley Ave., Chicago, Ill.

The troubles to which women are subject, because of their sex, are legion. Every day a woman is liable to have a new pain. Excessive worry may disturb the menstrual function and unsettle the nerves, over-exertion may set up some abdominal inflammation, or a trifling accident derange the whole reproductive system.

If you feel that there is anything at all unusual or puzzling about your case, or if you wish confidential advice of the most experienced, write to Mrs. Pinkham, Lynn, Mass., and you will be advised free of charge. Lydia E. Pinkham's Vegetable Compound has cured and is curing thousands of cases of female troubles—curing them inexpensively and absolutely. Remember this when you go to your druggist. Insist upon getting

Lydia E. Pinkham's Vegetable Compound.

THREE-SCORE YEARS DEVOTED TO SEARCH

Brother and Sister Reunited After
Remarkable Exhibition of Ten-
acity on His Part.

Joliet, Ill., Aug. 29.—A search of sixty years for a sister from whom he parted in Canada was terminated in Joliet by the meeting of James Bothwell and Mrs. Jane Herbert. When they were children, 7 and 5 years respectively, their parents died. The boy was adopted by a resident of Montreal, Canada. Another family took the sister. Several years later the boy, rebelling at unkind treatment ran away to sea. When he attained his majority he had saved up \$600, and with that he started out to find his sister.

He has traveled all over the United States and Canada in his search. When his money gave out he would go to work until he had accumulated enough to start again. He resided several years in Michigan City, Ind. A few weeks ago he went to Montreal and began a search of all records. By chance he discovered the entry showing the marriage of Jane Bothwell to Abraham Herbert. He also learned that she had lived with a family named Torrence. From them he learned that Jane Bothwell had moved to Illinois to a place they thought was Joliet. On looking at the map Mr. Bothwell concluded that Joliet was most likely the place. Mrs. Herbert, who is now a widow, keeps a little store.
